

Empty Nail Polish Bottle Assembly Instructions

1. Requires bottle, lid and brush.
2. Insert brush into bottle.
3. Place lid firmly on bottle with brush inserted. Tighten lid clockwise with firm even pressure.
4. Ensure lid is tightened completely.
5. Remove lid to check for a firm fitting brush.

TIPS

- Brush can be restraightened in warm water if any bristles are out of place.
- A gentle tap on the top of the lid before tightening can sometimes make tightening easier.
